

IN LINE ASPIRATOR PRE CLEANER

MODEL SHOWN AC60
 BEING FED BY A DOUBLE LIFT
 ELEVATOR & ENCLOSED BY A
 SPECIAL ACCESS PLATFORM.

The in line Aspirator Pre Cleaner removes dust, chaff, husks, awns & material lighter than the grain.

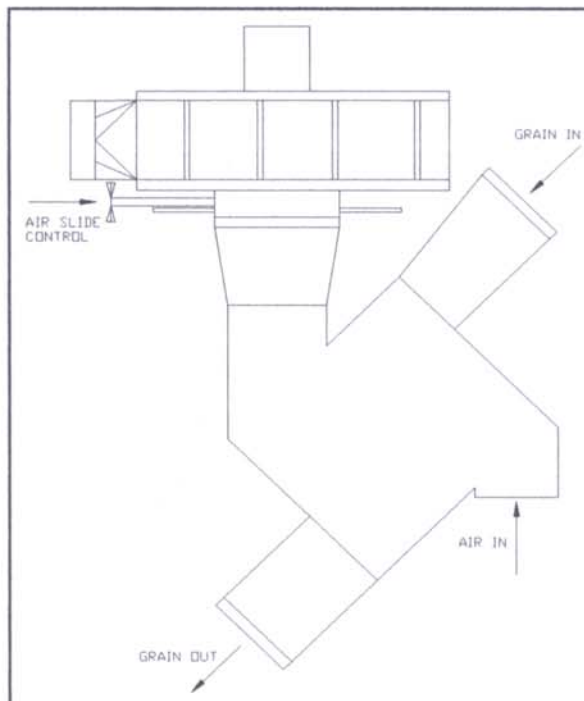

The grain is internally spread over the full width of the chamber & the air is pulled through the cascading grain.

CONTROL is simple - fan damper slide to control the air suction to suit the crop & flow of material.

CONSTRUCTION all galvanised steel with a weatherproof motor for external & internal installation.

INSTALLATION fit in duct run at 45 degrees so there is minimal loss of height.

CONNECTION adaptors to suit your requirements.

MODEL	CAPACITY TPH	MOTOR KW
AC30	30	1.1
AC60	60	2.2
