

ALVAN BLANCH

Processing the World's Crops

BAGGING MACHINE - FORM/FILL/SEAL

Model: MB250

A Vertical Form Fill Seal Machine for producing centre sealed sachets, handling all types of free flowing / non free flowing powders.

AB Filling range 50gm to 1000gm

AB Width from 50mm to 240mm

AB Up to 50 Packs/Minute

AB Length from 70mm to 450mm

SPECIAL FEATURES

- PLC controled with XBT membrane keys
- AC Inverter drive for main motor speed control
- Adjustable draw down belts
- Detachable perspex and stainless steel guards. Easy for fault finding.
- Power reel unwind
- Can be adapted to seal unsupported films using impulse sealing system.
- Inbuilt self diagnostic features
- PC uplink facility
- Password protection for settings
- Hourly production data.

ELECTRICALS

- Input 3 phase 415 V AC, 50 Hz
- Motor 11 HP, 3 phase 415 V AC driven through VFD
- Heaters 300 w X 3pcs
- Temperature Controller Digital Temperature Controller with FEK thermocouple
- Fully automatic photo control

DIMENSIONS AND WEIGHT

- Floor Area 1000 mm X 1125 mm
- Height 2450 mm with Hopper
- Nett Weight 1500 Kgs

PACKAGING MATERIALS

The machine will accept most types of laminated films upto 500 gauge. It is important that the sealing medium incorporates the best possible slip characteristics. Pure unsupported polythene film may be used with special impulse sealing equipment.

OPTIONAL EXTRAS

Take off conveyor, batching device, tear - cut device, coding, perforator between sachets, overprinting attachment, gas flushing and Infeed Product Elevator system

In accordance with our policy of continuous development, we reserve the right to change specifications and prices at any time without notice or incurring liability to purchasers. All goods supplied according to our published terms and conditions of sale (copies on application)
