

AB ALVAN BLANCH

Processing the World's Crops

- AB** Capacity up to 3300 m²/hr
- AB** Self propelled - multigear
- AB** Choice of diesel/petrol engine
- AB** Suitable for most crops

APPLICATION: The GF4 walk behind harvester is an economical solution to the need for mechanized harvesting of crops on small to medium scale farms. It may be used for a wide variety of crops such as: wheat, rice, sorghum and millet etc.

CONSTRUCTION/OPERATION: The machine has a reciprocating cutter bar of 110 or 127 cm width and is operated at a convenient walking speed, so that about 2 to 2.5 hectares can be harvested daily depending upon the crop type and condition. The four forward and three reverse gears allow operating speed to be varied to suit crops.

The controls are simple and convenient to operate. The 5.0 x 12 ply wheels provide good traction at all times.

OPTIONS:

Drive: Petrol or diesel engines, 5-6 Kw power, hand start.

Cutter bar: Two sizes - 110 or 127cm. The shorter size is recommended for use with the petrol engine.

SHIPPING DATA: Packed volume 0.6m³. Gross weight 125 kgs (petrol) or 150 kgs (diesel).

Hand held harvester **MOTORSCYTHE**

APPLICATION: Offers significant advantages over traditional manual crop reaping. Also suitable for cutting forage crops.

CONSTRUCTION/OPERATION: Lightweight but robust and reliable. Direct mounted 35cc petrol engine. Double handle for complete control, comfortable shoulder harness, 4 tooth blade of finest hardened steel quality with safety guard. Fitted with unique swathing bar assisting crop to be swept across into convenient rows, as it is cut.

SHIPPING DATA: Packed volume 0.2m³ Gross weight 12kgs

In accordance with our policy of continuous development, we reserve the right to change specifications and prices at any time without notice or incurring liability to purchasers. All goods supplied according to our published terms and conditions of sale (copies on application)
